Features

Wild Symbol. Wild replaces any symbol in the line, thereby gives a player a higher chance of winning. The Wild can't replace the Scatter symbol. The magic gates play the role of Wild symbol in the main and bonus game. Additionally, one of the characters can become a Wild symbol in Free Spins round (bonus game).

Free Spins. 3,4,5 scatters in any part of the display start the free spins round. Additional Free Spins can be won during the bonus round.

- 3 Scatters = 10 free spins
- 4 Scatters = 12 free spins
- 5 Scatters = 15 free spins

Fateful Wild. When the bonus starts the main game window switches to the character selection window: the player chooses the Fateful Wild from 3 represented characters. Prince, Morgana or Meizulina can be transformed into Wild symbol during Free Spins round. The player can choose the character before each new bonus round. Fateful Wild in the bonus round pays like Wild symbol in the bonus game (replaces any symbol in the line, except Scatter symbol).

After choosing Prince, Morgana or Meizulina the free spins round starts with **Multipliers** and **Excalibur feature**.

Multiplier. Free Spins include increasing multiplier (from 2x to 7x) for all wins of the bonus round. For each spin the multiplier varies randomly. If the spin ends in a win, the multiplier is applied to the result and the win increases.

Excalibur feature. Can appear during Free Spins (Note! It can appear several times by chance or won't appear at all). Excalibur feature places Additional Wilds on the spinning reels, also it is triggered randomly. With a wave of the magic sword **Additional Wilds** fall on the reels for each current spin, which contributes to increasing the player's winnings.
